Mobile
Lateral File

Known for the efficient way they use space from side to side, laterals are an essential tool in office organization. Many companies need ways to store physical files and track of paper records. This classical design can be applied low profile, to keep space visually open, or up to five high, to provide high density filing and used as space definition.

IN-LINE Mobile Lateral File

FEATURES

- Metal top lateral file is identical in structure to our IN-LINE Lateral File
- Counterweight is included
- Includes black 75mm casters (2) locking and (2) non-locking
- IN-LINE lateral file metal and laminate tops are sized to be flush with the sides of the cabinet, so that files installed side-to-side will have no gaps between
- Drawers include full-height side panels
- Two file bars are included in each drawer, for side-to-side filing. File conversion bars for front-to-back filing are sold separately
- Drawer bins will accommodate A4, Letter, and Legal size filing

OPTIONS AND ACCESSORIES

- Laminate top may be factory-installed or retro-fitted in the field
- File drawer dividers snap into position to accommodate side-to-side filing
- Pencil trays include four compartments and sit on top of the sides of the box or file drawer bin
- Laminate drawer fronts may be specified
- Polyethylene drawer front fillers increase sound absorption

Drawer Load Capacity

- 30", 36", 42" drawer: 125 lbs

Lock System

- Includes LL series locks, keyed alike, bright nickel, master-keyed, and core-removable (may be keyed-alike in the field). Other key series are available

AVAILABLE LOCKS & FRONTS
